

If you are taking a cab/uber ask for the core science facility on the corner of Arctic Avenue and Clinch Crescent. The first entrance (see arrow) is the entrance you want to the first floor. You will be in the Whale Atrium and will see the skeleton of a big blue whale overhead.

If you are driving, look up core science facility in google maps or 45 Arctic Ave. There is also a map at: [https://www.mun.ca/campus\\_map/index.php](https://www.mun.ca/campus_map/index.php), but google maps is much better.

**Parking is available in the Arctic Avenue Parking Garage (shown above) across the street from the Core Science Facility, Lot 27 which is located on level 2. Please check the signage as perimeter parking on those levels are not included in area 27.**
